

## **How Do I Remove Long-Lasting Cosmetic Colour?**

**Foops!™ Facial Color Remover & Oops Remover** ... is a systemized formulation that gently removes the SenseCosmetics™ line of colour technology from your face. This product is gentle enough for all skin types and breaks down the long lasting color technology allowing the SenePlex™ complex to be absorbed into the skin upon cleaning and moisturizing. It's not only a remover, but an anti-aging skin treatment.

**Ooops!™ Remover** ... is the gentle lip color remover especially designed to erase those Ooops! mistakes that can occur when applying LipSense. The applicator is the exact shape of the LipSense wand allowing you to easily use this product corrector.
